ICT Class 6 - Summative Assessment 1

Summative Assessment (SA-1) - Answer Key

Class: Class 6

Assessment Type: Summative Assessment (SA-1)

Total Marks: 40

Duration: 2 hours

Topics Covered: Ch 1-4: Internet, Graphics, Audio & Visual, Data Representation

Answer Key - Grading Guidelines

Note to Teacher: This answer key provides expected answers and marking guidelines. Accept equivalent answers where appropriate. Partial marks may be awarded for incomplete but correct responses.

Part A: Multiple Choice Questions (10 – 1 = 10 marks)

Q.No	Answer	Explanation
1	a	ICT stands for Information and Communication Technology
2	b	Google Search is a search engine; Chrome is a browser
3	c	Ctrl + C is the shortcut for copying text
4	c	Monitor is an output device
5	b	1 Megabyte (MB) = 1024 Kilobytes (KB)
6	b	Select tool is used for selecting a portion of an image
7	b	Microphone converts sound waves to electrical signals
8	b	LibreOffice Calc is used for creating spreadsheets
9	a	1010 is a binary number (contains only 0 and 1)
10	b	Pie chart shows parts of a whole

Part B: Short Answer Questions (8 – 2 = 16 marks)

- What is the difference between hardware and software? Give two examples of each.**
 - **Answer:** Hardware refers to physical components you can touch. Examples: Keyboard, Monitor. Software refers to programs and instructions. Examples: MS Word, Operating System.
 - **Marking:** 1 mark for hardware definition and examples, 1 mark for software definition and examples.
- Explain the difference between a web browser and a search engine.**
 - **Answer:** A web browser is software used to access and view websites (e.g., Google Chrome, Firefox). A search engine is a website that helps find other websites by searching the Internet (e.g., Google Search).
 - **Marking:** 1 mark for browser explanation, 1 mark for search engine explanation.
- What is image editing? Name any two image editing tools available in MS Paint.**
 - **Answer:** Image editing is modifying images to improve quality or create new designs. Two tools in MS Paint: Select tool, Fill with colour tool.
 - **Marking:** 1 mark for definition, 1 mark for correct tools.
- Define the terms: (a) Bit (b) Byte (c) Kilobyte**
 - **Answer:** (a) Bit is the smallest unit of data (0 or 1). (b) Byte = 8 bits. (c) Kilobyte (KB) = 1024 bytes.
 - **Marking:** 1 mark for bit and byte, 1 mark for kilobyte.
- What is multimedia? Name its five components.**
 - **Answer:** Multimedia is the combination of multiple forms of content. Five components: Text, Audio, Video, Graphics, Animation.
 - **Marking:** 1 mark for definition, 1 mark for listing five components.

6. What is the difference between RAM and ROM?

- **Answer:** RAM is temporary memory that loses data when power is turned off. ROM is permanent memory that retains data and cannot be easily modified.
- **Marking:** 1 mark for RAM, 1 mark for ROM.

7. Explain any two uses of the Internet in education.

- **Answer:** (1) Online learning: Students can attend video lectures and access e-books. (2) Research: Students can search for information using search engines and digital libraries.
- **Marking:** 1 mark for each well-explained use.

8. What is a file extension? Name extensions for three different file types.

- **Answer:** A file extension is a suffix at the end of a filename that indicates the file format. Three extensions: .odt (document), .ods (spreadsheet), .jpg (image).
- **Marking:** 1 mark for definition, 1 mark for three correct extensions.

Part C: Long Answer Questions (4 — 3 = 12 marks)

1. Explain the components of a computer system with a neat labeled diagram.

- **Answer:** A computer system has: (1) Input devices (keyboard, mouse) for entering data. (2) CPU (Central Processing Unit) for processing. (3) Output devices (monitor, printer) for displaying results. (4) Storage devices (hard disk, pen drive) for saving data. (5) Memory (RAM, ROM). Diagram showing all components with labels is required.
- **Marking:** 1 mark each for 5 components, 1 mark for diagram, 1 mark for neatness (3 marks total).

2. What is the Internet? Explain any four services available on the Internet.

- **Answer:** The Internet is a global network of interconnected computers. Four services: (1) Email for sending electronic messages. (2) World Wide Web for accessing websites. (3) FTP for transferring files. (4) Video conferencing for face-to-face communication online.
- **Marking:** 1 mark for definition, 1 mark each for four services.

3. Describe the steps to create a simple drawing in MS Paint. Mention any five tools used.

- **Answer:** Steps: Open MS Paint > Select tool > Draw on canvas > Colour the drawing > Save the file. Five tools: Pencil, Brush, Shapes (Rectangle, Circle), Fill with colour, Text tool.
- **Marking:** 1 mark for steps, 1 mark each for five tools.

4. What is a spreadsheet? Explain any three functions used in LibreOffice Calc with examples.

- **Answer:** A spreadsheet organizes data in rows and columns for calculations. Three functions: (1) SUM: =SUM(A1:A5) adds values. (2) AVERAGE: =AVERAGE(A1:A5) calculates mean. (3) MAX: =MAX(A1:A5) finds the highest value.
- **Marking:** 1 mark for definition, 1 mark each for three functions with examples.

Part D: Application Based Questions (2 — 1 = 2 marks)

1. Ravi wants to send a letter to his teacher using a computer. Which software should he use and why?

- **Answer:** Ravi should use a word processor like LibreOffice Writer because it allows formatting text, adding margins, and printing professional-looking letters.
- **Marking:** 1 mark for correct software with reason.

2. A school wants to display the results of all students in a bar graph. Which software can be used and what are the steps involved?

- **Answer:** LibreOffice Calc can be used. Steps: Enter student data in columns > Select the data > Insert > Chart > Choose Bar Chart > Customize and insert.
- **Marking:** 1 mark for correct software and steps.
