ICT Class 6 - Unit Test 3

Unit Test 3 - Answer Key

Class: Class 6

Assessment Type: Unit Test 3

Total Marks: 10

Duration: 30 minutes

Topics Covered: Programming - Scratch

ICT Teaching Resources Portal

Answer Key - Grading Guidelines

Note to Teacher: This answer key provides expected answers and marking guidelines. Accept equivalent answers where appropriate. Partial marks may be awarded for incomplete but correct responses.

Section I: Multiple Choice Questions (5 – 1 = 5 marks)

Q.No	Answer	Explanation
1	b	The green flag is used to start the program in Scratch
2	a	A variable in Scratch is used to store a value
3	b	Forever block repeats an action forever
4	a	The “say” block displays a speech bubble
5	a	A sprite is a character or object on the stage

Section II: Short Answer Questions (5 – 1 = 5 marks)

- What is the Scratch stage? What are its dimensions?**
 - **Answer:** The Scratch stage is the area where the output of a Scratch project is displayed. Its dimensions are 480 pixels wide and 360 pixels tall.
 - **Marking:** 1 mark for correct explanation with dimensions.
- Name any three categories of blocks available in Scratch.**
 - **Answer:** Motion, Looks, Sound. (Other valid answers: Events, Control, Sensing, Operators, Variables)
 - **Marking:** 1 mark for each correct category.
- What is a costume in Scratch? Why do we use multiple costumes?**
 - **Answer:** A costume is the appearance or image of a sprite. Multiple costumes are used to create animation effects, such as making a sprite appear to walk or change expressions.
 - **Marking:** 1 mark for defining costume, 1 mark for explaining use of multiple costumes.
- How do you add a new sprite to a Scratch project?**
 - **Answer:** Click on the “Choose a Sprite” button (cat icon) below the stage. You can choose from the library, paint your own, or upload from computer.
 - **Marking:** 1 mark for correct method.
- What is the difference between the “repeat” and “repeat until” blocks?**
 - **Answer:** “Repeat” block repeats a set of blocks a fixed number of times (e.g., repeat 10). “Repeat until” block repeats until a specified condition becomes true.
 - **Marking:** 1 mark for correct explanation of both blocks.
