ICT Class 6 - Unit Test 4

Unit Test 4 - Answer Key

Class: Class 6

Assessment Type: Unit Test 4

Total Marks: 10

Duration: 30 minutes

Topics Covered: Software Applications

ICT Teaching Resources Portal

Answer Key - Grading Guidelines

Note to Teacher: This answer key provides expected answers and marking guidelines. Accept equivalent answers where appropriate. Partial marks may be awarded for incomplete but correct responses.

Section I: Multiple Choice Questions (5 — 1 = 5 marks)

Q.No	Answer	Explanation
1	a	LibreOffice Writer is used for creating text documents
2	a	The extension of a Writer document is .odt
3	a	A database is a collection of organized data
4	a	Antivirus is a utility software
5	a	Presentation software is used for creating slideshows

Section II: Short Answer Questions (5 — 1 = 5 marks)

- What is the difference between a word processor and a text editor?**
 - **Answer:** A word processor (e.g., LibreOffice Writer) provides advanced formatting options like fonts, styles, and page layout. A text editor (e.g., Notepad) is basic and only handles plain text without formatting.
 - **Marking:** 1 mark for correct explanation.
- Name any three features of LibreOffice Impress.**
 - **Answer:** (1) Slide transitions and animations. (2) Insert images, charts, and videos. (3) Design templates. (Other valid answers: Speaker notes, handout printing)
 - **Marking:** 1 mark for each correct feature.
- What is a spreadsheet? Name the rows and columns in a spreadsheet.**
 - **Answer:** A spreadsheet is an application used to organize data in rows and columns for calculations and analysis. Rows are numbered (1, 2, 3...) and columns are labeled (A, B, C...).
 - **Marking:** 1 mark for definition, 1 mark for naming rows and columns.
- Why do we use antivirus software on a computer?**
 - **Answer:** Antivirus software is used to detect, prevent, and remove malicious software (malware) such as viruses, worms, and trojans that can damage data and harm the computer.
 - **Marking:** 1 mark for correct explanation.
- What is the purpose of a printer driver?**
 - **Answer:** A printer driver is a software program that allows the computer to communicate with and control the printer. It converts document data into a format the printer can understand.
 - **Marking:** 1 mark for correct explanation.
